

How to Catch a Dinosaur (Adam Wallace Andy Elkerton)

How to Catch a Dinosaur by Adam Wallace and Andy Elkerton is a fun, adventurous picture book that will captivate young readers. With catchy rhymes and vibrant illustrations, it follows a group of kids on a mission to catch a dinosaur, using their cleverness and creativity. Perfect for kids who love dinosaurs and exciting challenges, this book is a delightful blend of humor and imagination that will keep children entertained from start to finish.

How to Catch a Dinosaur

You are being provided with a book chapter by chapter. I will request you to read the book for me after each chapter. After reading the chapter, 1. shorten the chapter to no less than 300 words and no more than 400 words. 2. Do not change the name, address, or any important nouns in the chapter. 3. Do not translate the original language. 4. Keep the same style as the original chapter, keep it consistent throughout the chapter. Your reply must comply with all four requirements, or it's invalid. I will provide the chapter now.

Tomorrow's the big science fair!

I've never won before.

But this year I know I cannot lose

because I'm catching a !

The crocs and sharks we know today
were here when the dinosaurs ruled.

It makes no sense ALL dinos are gone.

On this point, I cannot be fooled.

We head straight to our local park

to pick up some kind of trail.

Wait! What's that thing over there?

YES! I think it's a DINOSAUR TAIL!

The dino is more bird than reptile;
we learned in science class that's true.

And this one left something behind—

I've got our first dinosaurclue!

Looks like we've got a plant eater.

The venus flytrap had no chance.

She danced right by our volcano

and knew the exit at first glance.

This clever girl runs fast as the wind

and dodged our trap in a hurry.

But we've got more in store for her,

so this is no time to worry.

HowtoCatchaDinosaur_INT.indd 17 2/25/19 4:39 PM

Was she watching when I tested each trap

with my action figures and toy bricks?

It's like she knows how each trap works...

Can it be she's onto my tricks?

Well that didn't go according to plan.

She slipped right past our noses

and if that isn't bad enough,

I ruined Mom's prize-winning roses.

We made a prehistoric playground

and with lots of friends to play,

our dino won't be able to resist.

This time she won't get away!

Tall enough to stop a Giant,

our trap had pullies, ropes, and decks.

But this dino smashed it all to pieces.

She should be called T. wrecks!

My mom is an engineer,

so I've learned a trick or three.

Our Robo Hugger 9000™

won't let our dino go free!

That clever dino tricked our robot

by dressing like a bird!

If I don't catch the dinosaur soon,

I'll be lucky to come in third!

We didn't catch the .

I don't know what to do!

But my friends remind me we still have

a science fair entry or two...
